

VELLA GROUP

900 Stradella Rd., Los Angeles, CA 90077

Located in one of the most unique promontories in Bel Air, the 15,000 square feet home provides 280-degree views from Hollywood Hills, downtown Los Angeles to the ocean.

Working with SAOTA architects, Vella Group made substantial modifications to the exterior and interiors of the existing structure with the introduction of an open-plan layout and a large south facing exterior terrace and swimming pool with its iconic 132-foot-long terrace canopy.

The five-bedroom, non-conventional contemporary estate which combines the use of limestone, wood and steel throughout, has nine bathrooms, a cinema, a gym and a wellness center with a sauna, steam room and indoor Jacuzzi.
